ings; see the energy waves pass out from you in ever-widening circles and the obedient electrons start into motion. Choose, if you will, a particular quality or a blessing that would benefit the race. It is a beautiful pastime for spending an hour of relaxation, and is a wonderful treatment for the body, the nervous system, and the soul. First, one must experiment with the mind, the heart, the feelings, and later the ganglionic centers can be trained to send forth these vibrations even when the conscious mind is busy with other matters. The untrained people of the world do this unconsciously in the sending forth of Christmas and Easter blessings. Let me see now what My chelas will do consciously.

Blessings and Love,

MAHA CHOHAN

****

Beloved Children:

The Great Universal Intelligence becomes the Father of the Universe long before a planet and its people come into manifest expression and this Great Intelligence works out in detail every department which will form a necessary faucet through which the lifestreams who will incarnate upon it must flow to keep balance and progress. Through this 'Father Presence' there are directed out into universal space, with geometrical accuracy, certain foci which will be radiating centers through which the life force of the incoming planet shall pass, qualified according to their service for the good of the race which will evolve upon it. The Intelligences who enter into these foci are, for the most part, voluntary beings from other spheres who, by their own self-conscious effort, draw the life force from the universal and radiate the required substance such as the sun rays and the air, as well as the qualities and virtues that make up the individuality.

At a later date, from among the mankind of the planet, individual intelligences will be evolved and the volunteer occupant of that cosmic center will relinquish his position in favor of the being whose evolution has prepared him to hold such an office. It is thus that I achieved and entered into the Office of the Maha Chohan, which I presently hold, having succeeded many previous exalted Beings whose wisdom, effort, radiation and power have made possible My present position, and

Who, at any time, particularly on Feast Days, may return and, with Me, radiate the blessings of the Holy Spirit to the people of Earth.

In like manner, all offices now held either by Beings from other spheres or from the evolved mankind of Earth will be relinquished joyously to members of the human race as they rise above the vibratory action of the outer self, and, desiring to become a part of the cosmic service, begin to build a momentum of some universal cause or quality such as Healing, Happiness, Purity, Mercy, or any virtue or quality for which the individual may have an affinity. Thus the Great Beings who hold the various offices, like Helios and Vesta and the Elohim, are constantly on the alert to find among the evolving race, any lifestreams who have a sympathy or possible attunement to Their vibration and cosmic service.

When such individuals are found there begins a 'grooming' that goes on for many thousands of centuries, during which the Great Being who has singled them out endeavors, as much as the restrictions of the Cosmic Law will allow, to expand and balance the radiation of the lifestream with the possible hope that in a future day such an one may become an aspirant for His great Office. It is only after many, many centuries of love and selfless care that the intellectual consciousness begins to raise itself toward this unseen but beneficent force which is molding and guiding the evolving soul. Then, there is always the question of free will, for no lifestream, even when highly advanced and evolved, need reciprocate in the least for the centuries of service and individual attention by pursuing the course which the Greater Ones, in Their light and wisdom, have mapped out

for them, and it very often happens that, at the end of this long time, the beloved chela decides to follow a different course.

It is thus that great Cosmic Beings have developed, among Their characteristics and qualities - patience, and a willingness to abide in Their self-chosen positions until, for Love's sake, some members of the race choose to follow in Their footsteps and qualify for Their Offices, allowing their Benefactors to continue Their own evolution.

Blessings and Love,

MAHA CHOHAN
